

CJS Team	Phase One: Explore	Phase Two: Prepare and Plan	Phase Three: Implement and Improve
<b>Carson City – Douglas Co. NV</b>	Beginning discussions with Storey County about providing EH services for them		Providing EH services for Douglas County. Working on IT issues), change management, improving (customer satisfaction survey), and refining services
<b>Central MA Regional PH Alliance</b>			7-county PH alliance in place. Ongoing performance management and QI. Working on accreditation; improving new Regional PH Council attendance; diversifying funding; determining how best to keep BOH/town admins apprised of PH efforts
<b>Central OR CJS Preparedness OR</b>		Further planning for a regional medical surge plan, regional risk communication MOU, funding for a PT regional risk communication coordinator, and additional opportunities to coordinate parts of preparedness programs	
<b>Cumberland Co. ME CJS</b>		The team undertook a comprehensive exploration re: providing public health services to surrounding municipalities; ultimately the other governments decided not to pursue this due to lack of local PH funding. After having completed a structured debrief with key partners the team hopes to have insight on how to overcome the funding challenge, and whether and how to propose providing food establishment program to neighboring city next year.	

CJS Team	Phase One: Explore	Phase Two: Prepare and Plan	Phase Three: Implement and Improve
<b>Genesee / Orleans Cos. PH NY</b>			The 2 counties now have integrated considerably with shared staffing; joint community health improvement planning; standardized policies and procedures; and routine communications between both governing boards. They anticipate formalizing this "pilot" structure, integration/merger of boards of health, but no fiscal integration/merger.
<b>Horizon MN</b>			Implementing a newly integrated health department, and will work on negotiating with collective bargaining units, working on lingering concerns, and developing an evaluation plan
<b>MN Kandiyohi &amp; Renville CHB</b>			The two counties have a fully integrated EH program; they will continue to work on change management in addition to program improvements through QI processes. Finally, they are also working together on accreditation.
<b>MN Partnership 4Health CHB</b>			Newly integrated health department will continue to work on CHIP and SP; QI process to standardize processes across counties; baseline staff survey; change management; integrating EH, informatics, family home visiting next.
<b>MN Polk &amp; Norman-Mahnomen CHB</b>		The two departments will continue to identify other areas where CJS would improve their effectiveness	Family Home Visiting Program is being shared across counties and they will monitor, evaluate and improve their processes moving forward.

CJS Team	Phase One: Explore	Phase Two: Prepare and Plan	Phase Three: Implement and Improve
MN B-E-R CHB			The 3 health departments have been evaluating and improving current CJS arrangements and will be considering consistent performance management processes and new financial models
Northeast OH		The city and county public health agencies are working on a joint community health improvement planning process and it will drive additional collaborative efforts. Also talking about accreditation.	Kent is now implementing a mosquito abatement program for the Portage County Health District
Northern NV Shared Services	"Pre-phase 1" - Washoe County will continue to educate the small, rural LHDs in the northern tier of the state about the breadth of governmental public health functions		
Northwest MI CJS			Implementation of a new Regional Public Health Alliance , to include: implementing planning and uniform best practice; formalizing regional PH Alliance; launching a uniform marketing plan; educating and engaging r to advocate for aligned PH policy/laws; coordinating technology; and creating PH workforce
			BLDHD: will be working to implement new contractual arrangement with a neighboring LHD

CJS Team	Phase One: Explore	Phase Two: Prepare and Plan	Phase Three: Implement and Improve
<b>Northwoods Public Health Community WI</b>	*2 counties within the Northwoods region are looking at sharing services with counties outside of the region. *Some other counties within the region considering sharing arrangement that involves sharing of tasks, but not funds.	*Ashland and Bayfield are considering sharing a PHN. *Marathon is part of a statewide group developing a multi-jurisdictional well woman model.	*Four county dental program formalized with MOA.
	*In addition, the team lead is working with state health department to provide further technical assistance to the Northwoods region around CJS efforts after the grant ends		
<b>Project Smile NC</b>			Cabarrus will have finalized contractual sharing agreements for their dental mobile unit and will create a business plan to further expand dental services
<b>San Diego / Imperial Cos.- Baja CA Region</b>		Anticipate that MOA for TB prevention and control with state of California, San Diego and Baja, Mexico will be formalized. Will work on identifying additional funding for those efforts in addition to a communications plan. Continuing to work on collaborative efforts between San Diego and Imperial Counties around TB control and prevention	
<b>San Luis Valley, CO Partnership</b>			The Partnership is formalized and they will continue to work on expanding shared activities
<b>Yellowstone / Carbon Cos. MT</b>		Anticipate discussing results of feasibility study to decide whether to expand health district in Yellowstone to include Carbon County
